RENDERUERSE

Abstract

Ever wondered how to get your favorite items in the Real-world to Metaverse? Or maybe your own 3D avatar to your favorite metaverse game? You have come to the right place. With Renderverse, you can replicate any real-world object and mint them as NFT's in Metaverse.

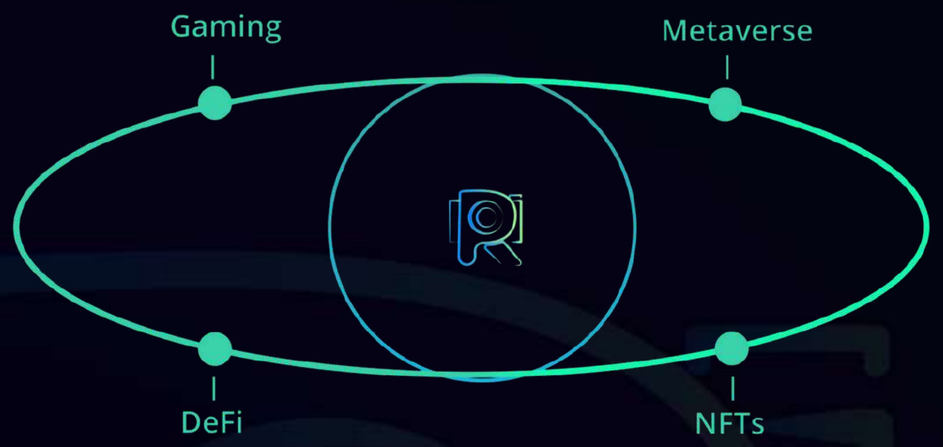
RenderScan app lets you create NFT’s of Real-world objects with a single click and enables you to trade them in Renderverse Marketplace. In order to integrate key decentralized components with metaverse, our team has built Render-ecosystem which allows users at any level to earn passive income while using.

With our easy-to-use RenderScan app, we hope to remove the barriers that prevent users from entering the world of NFTs and Metaverse.

RENDERUERSE

What is Renderverse?

Renderverse is a multi-dimensional ecosystem that encompasses a number of products, the most important of which being RenderScan and the technology that powers it. RenderScan is a cross-device Augmented Reality application that scans objects in the real world and mints them as NFTs in Metaverse



RENDERUERSE

Renderverse Ecosystem

RenderScan

Deep-learning based scanner application that lets you scan real-world objects and port them to the metaverse

RenderMarket

An NFT marketplace where users can buy, sell and trade their NFTs using $RNDV token

RenderFI

Defi components to earn a passive yield on your $RNDV tokens.

RenderPlay

Online multiplayer p2p gaming powered by render gaming engine

RenderStore

Shop your favorite Merchandise for your digital twin

RENDERUERSE

Market Potential

$220 Billion

Gaming

$80 Billion

Metaverse and NFT's

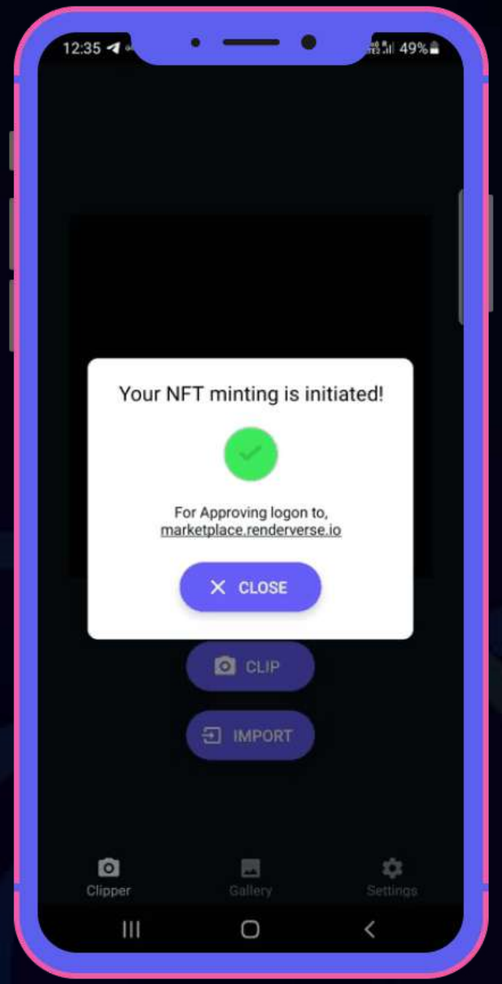
$220 Billion

E-commerce Merchandise

RENDERVERSE

RenderScan Application

- RenderScan lets you create NFTs from real-world objects within seconds simply by clicking a snap on our RenderScan Application.
- Our Multi-level Deep learning model will evaluate the snap clicked on your mobile and identify the objects with high precision. This cutting-edge technology was extensively developed and tested by RenderVerse engineers.
- The RenderScan app will be available both for Android and IOS.

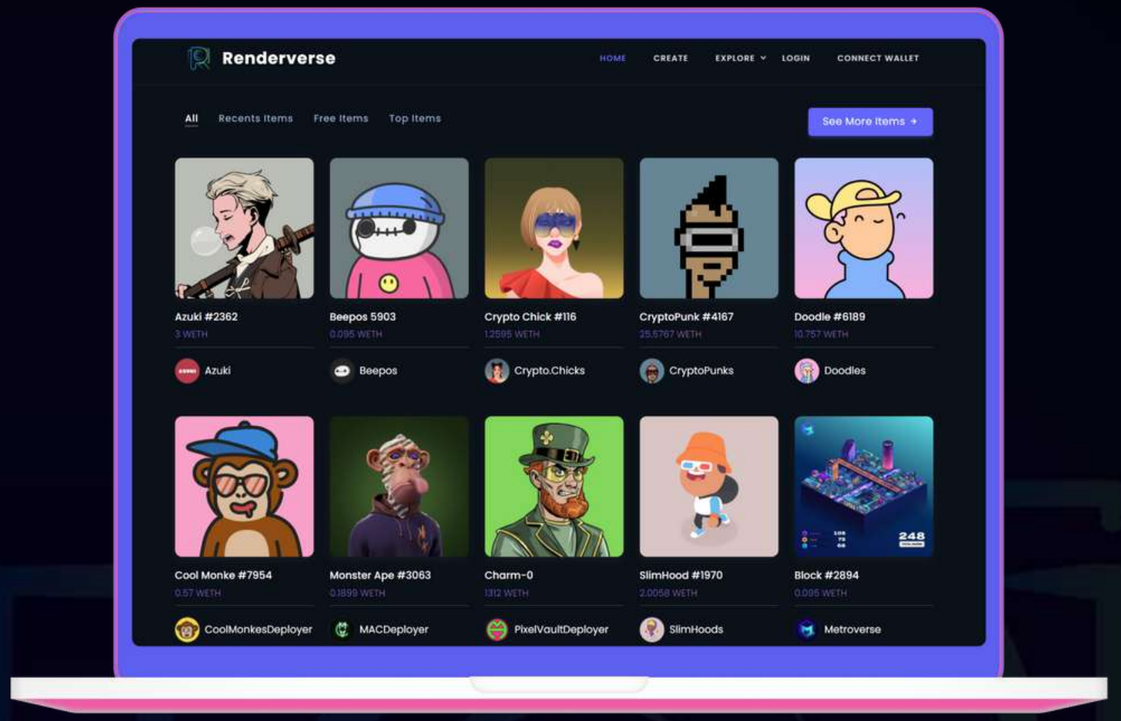


RENDERUERSE

RenderMarket

- RenderMarket is a decentralized NFT marketplace where users can buy, sell and trade their NFTs minted through RenderScan

- Our app lets users customize their images with advanced editing tools and framework before minting them as NFTs



RENDERUERSE

RenderFi

Holders of our $RNDV tokens will be able to leverage from our various DEFI components –

- Staking – Stake your $RNDV tokens to earn passive yield with attractive APY
- Farming – Farm $RNDV tokens by providing liquidity to $RNDV pools on DEX

Renderverse will aid in continuously fueling the staking pool while maintaining a decent ROI for our users as the ecosystem develops.

RENDERUERSE

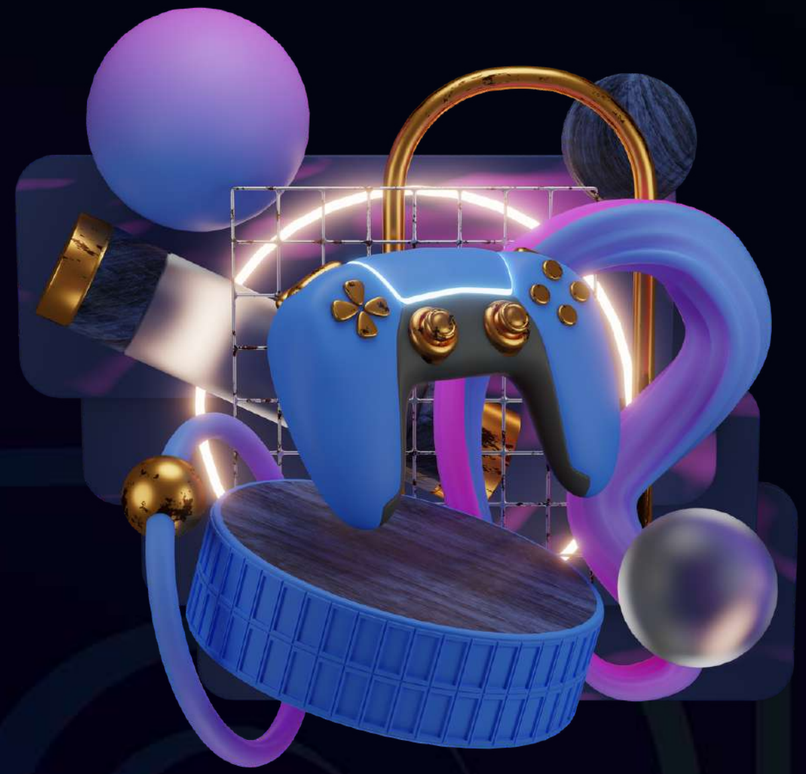
RenderStore

- RenderVerse will have its metaverse merchandise platform where users can buy shirts, t-shirts, shoes, caps, and various accessories for another digital twin.
- RenderScan NFTs can be printed on various merchandise.
- $RNDV token will be used as a native token in RenderStores

RENDERUERSE

RenderPlay

- RenderVerse aims to enter the GameFi sector that combines gaming and Defi.
- RenderPlay contains several P2P and multiplayer games like a rendle, scavenger hunt, lucky raffle, etc, that can be participated through $RNDV tokens.



RENDERUERSE

RenderToken Utility

- Render tokens (RNDV) is a utility token powering the RenderVerse ecosystem
- $RNDV facilitates users to access premium features like unlimited scans, editing tools in the RenderScan application
- $RNDV allows users to trade NFTs on the RenderMarket
- $RNDV lets users participate in multiplayer p2e games on the RenderPlay platform
- $RNDV enables users to buy the merchandise in the RenderStore metaverse
- Users can leverage DEFI components to earn a passive yield on their $RNDV tokens

RENDERUERSE

RoadMap

Q4 2021

Ideation

- Core team formation
- Market research
- Business Model Validation

Product Development

- R&D of RenderScan
- Software development Architecture
- Smart contract Architecture

Q1 2022

Growth phase

- Website V1 Launch
- Seed & Strategic Sale
- Team Expansion
- Marketing
  - PR campaigns
  - Prelaunch Marketing
- RenderScan V1 Launch
- RenderFi launch
- Smart contracts auditing

Q2 2022

Expansion

- Website V2 launch
- Listings on CEX and DEX
- Strategic partnerships
- Scaling userbase to 100k users

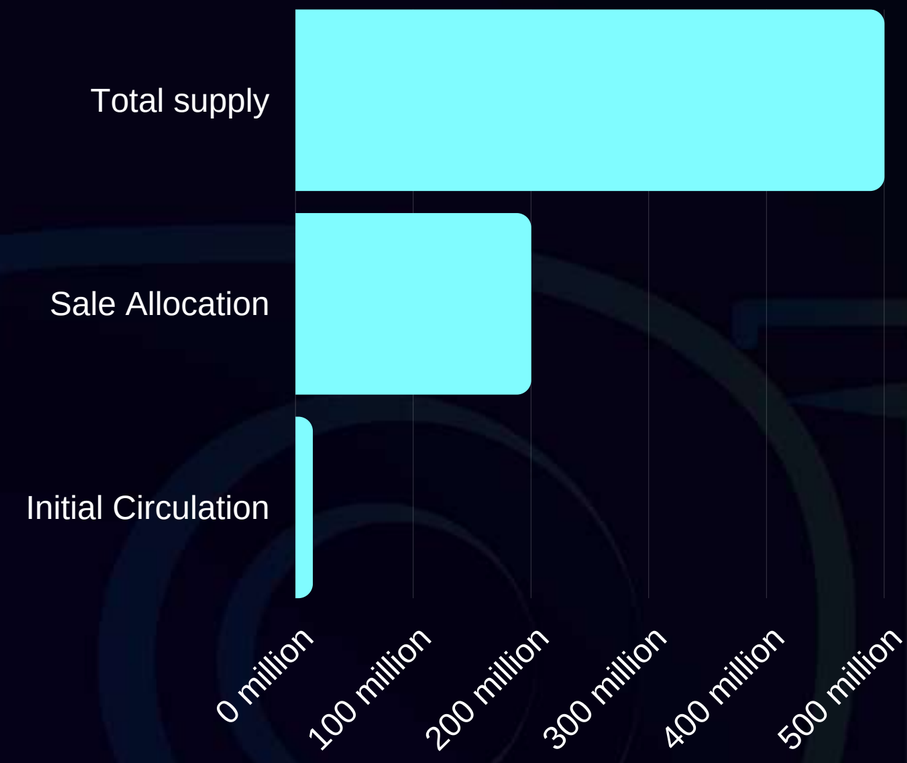
Ecosystem Launches

- RenderMarket launch
- RenderPlay launch
- RenderStore launch

RENDERUERSE

$RNDV Token

Token Name - Renderverse
Token Ticker - $RNDV
Network - Binance Smart Chain
Token type - Utility



TOTAL TOKEN SUPPLY - 500 MILLION
ALLOCATED FOR SALE - 200 MILLION
INITIAL CIRCULATION - 63.5 MILLION

RENDERUERSE

Tokenomics

Category	Tokens	Vesting release
Sale	40%	See Vesting section (pg. 7)
Company Reserve	8%	5% over 20 months
Rewards	12%	5% over 20 months
Community treasury	7%	5% over first 10 months and 10% over next 5 months
Team and Advisors	15%	6% over first 5 months, 7% over next 5 months and 5% over next 7 months
Marketing and Operations	10%	on-demand
Liquidity and Listings	8%	on-demand
